**Royce Mobile CB radios**

**BEST BUY BECAUSE:**

it's small on price but big on features. There's a large S-RF meter, variable squelch, P.A. switch, AGC, tuned RF stage and more. Add to this our bonus of a Royce SWR meter and you have a super Christmas value.

We know of no other place where you'll get more features and higher quality at this price. S/RF meter turned on transmit. Variable squelch provides quiet standby. P.A. switch converts unit to Public Address system. AGC prevents fading and blasting. Tuned RF stage means greater receiving range. Built-in automatic noise limiter. Dual conversion receiver. Operation on DC pos or neg ground. Incl. mike, clip, hardware, manual, license application. 6x2 1/4 x 5 1/2 in. deep. SWR meter matches antenna to transceiver for stronger transmit signals. Radio #419 was 119.95, without meter, Spg. Bk., pg. 949.

**BEST BUY BECAUSE:**

it has Gyro-Lock®. In our opinion, the most reliable channel operation available. Integrated circuits replace all but 2 of the 14 crystals used on other sets. Cuts channel drift in extreme temperatures. No warm-up in snowmobiles. Read on...

**CUT \$50 129<sup>88</sup>**

Gyro-Lock "locks in" the receive and transmit signal to the center of each channel. Electronic compensation for varying temperatures assures that you'll always be "on" channel. We believe it's the most accurately tuned unit available. Our deluxe transceiver also uses a heavy-duty circuit board. It's strong enough to withstand even excessive truck vibrations. Twin lights indicate transmit (red) and receive (green). Local-Distance switch helps prevent overload and distortion from nearby stations. Automatic noise limiter minimizes noise and static. AMC circuit delivers maximum audio punch. Squelch, P.A. and tuned RF (described above). Variable tone control. Operation on DC pos/neg ground. Incl. accessories as above. 7 1/2 x 2 1/2 x 8 in. D. FCC type accepted. Wt. 5 lbs. 62 G 505LS—Was 179.95 in Fall Bk., pg. 1075. 129.88
